Product Quality Analyst | QA-Driven Product Consultant | Salesforce-Certified Product Professional

Product-focused professional with 2 years of hybrid experience in QA, product delivery, and stakeholder coordination. Skilled in WBS creation, milestone tracking, and Agile execution. Known for blending a QA mindset with product-thinking to improve user outcomes, streamline delivery, and drive cross-functional alignment. Salesforce-certified with hands-on impact across UAT and go-live cycles.

WORK EXPERIENCE

Product Quality Consultant Makepositive software solutions limited India - Owned delivery of multiple B2B CRM feature rollouts across Salesforce Sales, Service, and Marketing Cloud products, impacting >50,000 users. - Defined scope and roadmap for internal tooling and client-requested features; wrote PRDs and translated user needs into actionable sprint goals. - Led sprint planning and daily standups with QA, developers, and business analysts across India and UK teams. - Created and implemented RACI matrices, WBS, and project charters to align roles, responsibilities, and delivery checkpoints. - Directed end-to-end UAT processes — planning acceptance criteria, gathering client feedback, and leading triage meetings to prioritize critical bugs. - Collaborated with QA engineers to ensure traceability, coverage, and post-release validation aligned with user expectations and release SLAs. - Reduced delivery cycle time by 30% by streamlining UAT + feedback workflows and automating parts of the QA handoff. - Presented key features, updates, and post-release retrospectives directly to clients and stakeholders.	Jan 2022 - Nov 2023 India
Trainee Associate Engineer Wipro Limited - Designed architecture diagrams for project pipelines, increasing efficiency by 40%. - Collaborated on ETL tasks, achieving a 99% pipeline stability rate. - Partnered with global teams to launch three product lines, driving a 20% increase in sales.	Oct 2021 - Dec 2021 Noida , India

PROJECTS

FocusFlow - Full-Stack SaaS Application - Owned end-to-end product development of a deep work SaaS platform with Pomodoro timers, task tracking, and visual analytics , resulting in a 30% increase in session completion during early testing through structured feature iteration. - Led feature prioritization and roadmap planning, launching a GitHub-style heatmap calendar that improved daily engagement and user retention by motivating consistency and goal tracking. - Defined the MVP scope, created wireframes in Figma, and managed sprint execution using Asana — enabling on-time delivery of the MVP in 4 weeks. - Partnered with users through discovery interviews, usability testing, and feedback loops, resulting in two feature pivots that drove a 25% increase in early user satisfaction, as measured via post-session NPS surveys. - Collaborated cross-functionally on UI/UX, implementing a modern frontend with Next.js and Framer Motion — contributing to a 40% boost in average session duration due to enhanced usability.	Mar 2024 - Apr 2025
Healio - A online therapy booking platform  - Defined and executed the MVP roadmap for a mental health platform enabling therapist discovery, session scheduling, and secure communication — resulting in a 25% improvement in booking efficiency during user testing. - Led cross-functional coordination with engineering to deliver core features including appointment booking, therapist dashboards, and real-time communication, ensuring delivery of the MVP within 4 weeks. - Scoped and prioritized authentication and privacy features, including secure login, session management, and role-based access — aligning with user trust expectations and achieving 100% session integrity. - Drove feature adoption through the integration of Socket.io chat and AJAX-based dynamic updates, which improved engagement and reduced drop-off by 40% during onboarding sessions. - Owned product delivery milestones, managed sprint tasks, and oversaw user communication workflows such as appointment reminders via Nodemailer to drive user reactivation and minimize missed sessions.	Sep 2024 - Jan 2025

EDUCATION

MBA Manipal University Focused on statistical analysis, data visualization, and decision science for tech and product strategy.	Aug 2024 - Aug 2026
Bachelor of Technology: Information And Technology Swami Keshvanand Institute of Technology Completed a major project on Bus Reservation System - Ezbus. and Participated in Robotics Club, HackerRank, and organized college fest programs.	Jul 2017 - Sep 2021

AWARDS

Mountain Mover by Makepositive Software Solutions Limited	Jun 2023
Received the 'Mountain Mover' award for excellence in product execution by leading end-to-end UAT cycles, aligning cross-functional teams, resolving critical launch blockers, and ensuring smooth feature rollouts — resulting in on-time delivery, reduced support tickets, and elevated stakeholder satisfaction.
